[Contents listing and Foreword](#)

Section A: Background to the Tycho Data Analysis

[1. Introduction](#)

- 1.1. Overview
- 1.2. Pre-Launch Preparations
- 1.3. Organisation of the TDAC Consortium
- 1.4. Relevant Properties of the Mission and the Star Mapper
- 1.5. Calibration Inputs
- 1.6. Detection and De-Censoring

[2. Overview of the Tycho Data Processing](#)

- 2.1. Introduction
- 2.2. Tycho Input Catalogue
- 2.3. Prediction of Group Crossings
- 2.4. Detection of Star Transits
- 2.5. Recognition of Stars
- 2.6. Transit Identification
- 2.7. Photometry
- 2.8. Astrometry
- 2.9. Double and Multiple Stars
- 2.10. Five Stages of Processing

[3. The Tycho Input Catalogue](#)

- 3.1. Introduction
- 3.2. The Production of the Tycho Input Catalogue
- 3.3. Cross-Matching the Guide Star Catalogue with the INCA Data Base
- 3.4. The Contents of the Tycho Input Catalogue
- 3.5. The Tycho Input Catalogue Revision
- 3.6. Publication of the Tycho Input Catalogue

Section B: Analysis Procedures and Intermediate Results

4. Satellite Data Processing

- 4.1. Prediction of Group Crossings
- 4.2. Background Determination
- 4.3. Detection of Star Transits
- 4.4. Estimation of Transit Parameters
- 4.5. Verification Methods

5. Recognition of Stars

- 5.1. Introduction
- 5.2. General Outlines
- 5.3. Preparation of the Input Data
- 5.4. The Search for Companion Stars
- 5.5. The Search for Serendipity Stars
- 5.6. Estimation of the Magnitudes of the Stars
- 5.7. Properties of the Tycho Input Catalogue Revision

6. Updating and Identification of Transit Data

- 6.1. Prediction Updating-2
- 6.2. Prediction Updating-3
- 6.3. Identification of Transits
- 6.4. Verification Methods

7. Astrometric Analysis of Transit Data

- 7.1. Theoretical Basis of the Astrometric Reduction
- 7.2. Processings, Identification, Parasites
- 7.3. Geometric Calibration of the Star Mapper
- 7.4. Astrometric Parameters and Quality Classes

8. Photometric Analysis of Transit Data

- 8.1. Theoretical Basis
- 8.2. Instrument Calibration
- 8.3. Verification Methods

9. De-Censored Magnitudes of Faint Stars

- 9.1. Introduction
- 9.2. The Statistical Model
- 9.3. The Adaptation of the Model to the Actual Data
- 9.4. The De-Censoring Procedure
- 9.5. Verification of the Results of the De-Censoring

10. Reprocessing of the Satellite Data

- 10.1. Introduction
- 10.2. The Tycho Input Catalogue Update
- 10.3. Prediction of Group Crossings
- 10.4. Prediction for Solar System Objects
- 10.5. Detection of Transits
- 10.6. Identification of Transits
- 10.7. Verification Methods

11. Production of the Tycho Catalogue

- 11.1. Production of the Astrometric Catalogue
- 11.2. Merging
- 11.3. Completing Steps of the Catalogue Production
- 11.4. Production of the Tycho Epoch Photometry
- 11.5. Photometric Part of the Tycho Catalogue

12. Tycho Processing Summary

- 12.1. Introduction
- 12.2. Raw Data and Pre-Reduction
- 12.3. Sorting and Catalogue Preparation
- 12.4. Catalogue Production

Section C: The Off-Line Tasks

13. Photometric Standard Stars

- 13.1. The Preliminary Standard Star Catalogue
- 13.2. The Revised Standard Star Catalogue

14. Special Treatment of Double and Multiple Systems

- 14.1. Introduction
- 14.2. Close Double Stars from Catalogues
- 14.3. Candidate Double Stars from Tycho Observations
- 14.4. Astrometric Reduction of Close Double Stars in Reprocessing
- 14.5. Double-Peak Detection in Reprocessing
- 14.6. Photometric Duplicity Search

15. Special Astrometry and Photometry of Solar System Objects

- 15.1. General Overview of Planetary Data Treatment
- 15.2. Reduction of Planet Observations
- 15.3. Accuracy and Precision

Section D: Properties of the Final Tycho Catalogue

16. Contents of the Tycho Catalogue

- 16.1. Overview of the Tycho Catalogue
- 16.2. Astrometric Content
- 16.3. Photometric Content
- 16.4. The Tycho Epoch Photometry Annex

17. Verification of the Tycho Catalogue: Stellar Content

- 17.1. Introduction
- 17.2. Completeness of the Tycho Catalogue at the Bright End
- 17.3. Completeness of the Tycho Catalogue at the Faint End
- 17.4. Cross References
- 17.5. Concluding Remarks

18. Verification of the Tycho Catalogue: Astrometry

- 18.1. Astrometric Standard Errors
- 18.2. Comparison with the Main Hipparcos Catalogue
- 18.3. Comparison with the PPM Catalogue
- 18.4. Tycho Positions
- 18.5. Tycho Proper Motions
- 18.6. Tycho Parallaxes

19. Verification of the Tycho Catalogue: Photometry

- 19.1. Tycho Mean Magnitudes
- 19.2. Doubtful Standard Stars
- 19.3. Tycho Suspected Variable Stars
- 19.4. Comparison of Tycho and Hipparcos Epoch Photometry for Algol
- 19.5. Tycho Photometry of Double Stars

20. Future Prospects

- 20.1. Proper Motions Derived by Means of the Astrographic Catalogue
- 20.2. Reductions of Photographic Plates and CCDs using the Tycho Catalogue
- 20.3. Search for New Variables in the Epoch Photometry
- 20.4. The Second Tycho Processing

Appendices

Appendix A. References
